Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's arguments filed 01/20/05 have been fully considered but they are not persuasive. The Response submitted by Applicant does not overcome the rejection made by Examiner in the last Office action.

Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zaki et al.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Applicant is correct in stating that the reference discloses "the polyalkylphenol-polyalkylenepolyamines-formaldehyde ethoxylates are prepared by reaction of one mole of polyalkylphenol-polyalkylenepolyamines-formaldehyde polymer with one mole of polyethylene glycol---".

However, Applicant is incorrect in stating that the Zaki reference does not teach or suggest replacing the single molar equivalent of polyethylene glycol with at least five-fold molar excess of alkylene oxide to prepare a structurally different polymer, because the reference does disclose some variations such as the alkyl substituent of phenol chain length, the number of amino groups present in the polyalkylenepolyamines and the number of ethylene oxide groups used to ethoxylate the phenolic hydroxyl group.

Therefore, to modify the number of ethylene oxide groups within the limitations of the instant claims is the level of ordinary skill in the art and would have been obvious in the absence of a showing of unexpected results derived from said modification.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
